

Services for Young Children Business Support

Services for Young Children Funding Workshop Event **Tuesday 27 November 2012 7pm – 9pm** **Ashburton Hall, Queen Elizabeth 2 Court, Winchester**

Is your setting struggling to raise money for an important project? **Do you need help fundraising?**

Services for Young Children are holding a grant funding workshop to help providers in the voluntary charitable sector understand:

- What grant providers in this sector will fund and not fund
- What funders typically look for
- Information needed to prepare applications
- How to apply
- How to access potential grant providers

This informal yet informative event will be of particular interest to committee members and managers of settings in the voluntary sector, and is being organised in conjunction with our colleagues in the Council's Economic Development and Culture Communities and Business Services teams.

The programme will include presentations on:

- Funding Fundamentals
- Developing Partnerships
- Big Lottery/Awards for all

As well as looking at some inspiring case studies you will also get a chance to "Have a go" by looking at an application.

The event is free, and to book your place(s) (maximum two per setting), please email sarah.critcher@hants.gov.uk
